

St Marys Cement

St Marys Portland Cement

GU – General Use (Type 10) Hydraulic Portland Cement

General Use Portland Cement. Portland cement is the binding ingredient used in concrete mixes with or without other binders. Concrete is widely used as a building material for structure and pavements.

Specifications

Usage

A general-purpose cement suitable for all uses where the special properties of other types are not required.

Exceeds

CSA A3001 Portland Cement.

Precautions

Avoid contact with eyes. Contains Portland Cement, which when mixed with water forms a calcium hydroxide solution. If splashed in eyes or skin, flush thoroughly with water. Avoid contact with skin, including contact with saturated clothing. Persistent discomfort requires prompt medical attention. For more information, reference the applicable St Marys Material Safety Data Sheet (MSDS). The MSDS should be consulted prior to use of this product and is available upon request or online at www.stmaryscement.com.
